ABOUT ME

Passionate and detail-oriented Computer Science graduate with a strong foundation in programming, mobile application development, and analytical problem-solving. Skilled in building practical and user-friendly applications while continuously exploring emerging technologies and modern development practices. Eager to contribute technical knowledge, enhance professional skills, and gain real-world industry experience through an internship opportunity in the IT field.

PROJECTS

Career Clarity Companion (C CUBE)

Built Using - Flutter , FireBase and Restfull API

- Engineered a cross-platform mobile app using Flutter for the front-end and Firebase (Cloud Firestore, Authentication) for the back-end and database.
- Integrated Google's Gemini API to create an intelligent AI engine that delivers personalized career path suggestions and resolves user queries.

MediCare+ — Smart Medicine Purchasing Application

Built Using - Flutter / Firebase Mobile App

- Seamless online medicine purchasing with high-quality verified products
- Access to all types of medicines with real-time stock availability
- AI-powered medicine detection and usage explanation system
- Live medicine tracking and instant order status updates

WORK EXPERIENCE

MERN Stack Dev Intern | Naan Mudhalvan x IBM Jan 2026 – Feb 2026

- Engineered PayrollPro using MongoDB, Express, React, and Node.js to automate salary processing, compliance, and bulk onboarding.

MERN Full Stack Intern | Altruisty Innovation Pvt Ltd Jan 2026 – Jan 2026

- Designed and developed an Enterprise Resource Planning (ERP) platform using MongoDB, Express, React, and Node.js to streamline organizational data workflows.

ACHEIVEMENTS

2nd Runner-Up (3rd Place) | impact-a-thon X AMS'25

- Awarded for the conceptualization, development, and presentation of the "Career Clarity Companion (C^3)" mobile application.
- The project was recognized from a competitive field for its innovative use of an AI engine to provide personalized career guidance and for its polished user experience built with Flutter.
